Experience

Schbang

Software Engineer - Full Time

Product: <https://secondbrain.schbanglabs.com>

Jun 2025 – Present

Mumbai, Maharashtra

- Engineered production-grade, multi-microservice applications on AWS (EC2, S3, RDS, SQS, SNS, Elastic Beanstalk), delivering 99.9% uptime across distributed systems handling 10K+ concurrent requests.
- Architected end-to-end full-stack features spanning Node.js, FastAPI backends, and frontend integrations—powering Second Brain AI (200+ brand assets centralized, 70% onboarding reduction) and meeting automation pipelines (50+ Google Meets/month, 95% transcription accuracy, Rs.1Cr annual savings).
- Designed Schbang Hire AI careers portal with automated resume screening (500+ resumes at 92% accuracy, hiring time from 21→2-3 days) featuring real-time candidate tracking and AWS SES/ElevenLabs/LLM voice interviews.
- AWS-focused optimizations: Implemented RDS read replicas, S3 lifecycle policies, ElastiCache for session management; achieved sub-200ms API latencies under peak loads.
- Deployed AWS Rekognition for automated image/content analysis in brand asset pipelines; integrated AWS SES for high-volume transactional email (500+ candidates tracked).
- Built scalable REST APIs and modular service layers enabling LLM integrations, RAG, and vector database pipelines; optimized PostgreSQL/MongoDB schemas and queries for high-throughput data access.
- Implemented asynchronous, event-driven workflows with SQS/SNS for reliable background task processing, ingestion pipelines, and queue operations across 8 microservices.
- Owned complete system lifecycle: requirements mapping → infrastructure design → deployment of 12 production features, reducing infrastructure costs by 35% through performance tuning and monitoring (logs, CloudWatch telemetry).
- Drove CI/CD pipelines with Docker and GitHub Actions for containerized deployments; maintained comprehensive technical documentation and service contracts enhancing team velocity.

Certifications

AWS Certified Developer – Associate | Amazon Web Services

Feb - 2026 – Feb - 2029

- Advanced AWS certification validating production-grade cloud development expertise
- Core competencies: Serverless architectures, CI/CD automation, secure service integrations
- Aligns directly with hands-on Schbang experience across 8+ production microservices

Projects

Tripto | Next.js, Node / Express.js, MySQL

Link: <https://tripto-web.vercel.app>

- Architected decentralized B2B platform revolutionizing India's outstation travel market—connecting car owners, local vendors, and digital service providers in a structured ecosystem.
- Built responsive multi-section landing page with Home, Business Model, Market Challenges, Features, Entrepreneurs, Future Vision sections using React.js/Next.js for seamless navigation and stakeholder engagement.
- Designed vendor collaboration interface highlighting GPS tracking, secure payments, real-time analytics, vehicle options (4+1/6+1 seater), transparent pricing—solving fragmentation and B2C dominance challenges.

Technical Skills

Programming Languages : Javascript , Python

Frameworks & Libraries : Node.js , Express.js , Fast API , React.js , Next.js

AI & Database : LLM integrations, Retrieval-Augmented Generation (RAG) models, Vector databases, MySQL , PostgreSQL , MongoDB

Devops & Infrastructure Control : AWS Services , Docker, Github Actions CI/CD

Version Control & Collaboration : Git, GitHub

Core Competencies : System design, scalable architecture, production-grade cloud services, rapid product development

Education

Vasantdada Patil College Of Engineering And Visual Arts - Mumbai University

Bachelor of Engineering in Computer : CGPA 7.75

June 2021 - May 2025

Mumbai , Maharashtra
